

Install Guide

How to install:

1. Download and install SimHub v9.2.7 or later.
2. Download **RaycerRay** Plugin
 - i. <https://www.overtake.gg/downloads/raycerray-f1-plugin-for-simhub.64406/>
3. Locate your **RaycerRay** Plugin download folder and Drag and Drop "RaycerRay.PluginSdk.dll" into your SimHub directory.
4. Locate your **F1TV** download folder and Drag and Drop the SimHub folder into your SimHub directory.
 - i. *This step is most important to install the F1TV plugin and the ImageLibrary for all of the TeamLogos.*
5. Double click any of the F1TV overlays to install them.

Configuring F1 game:

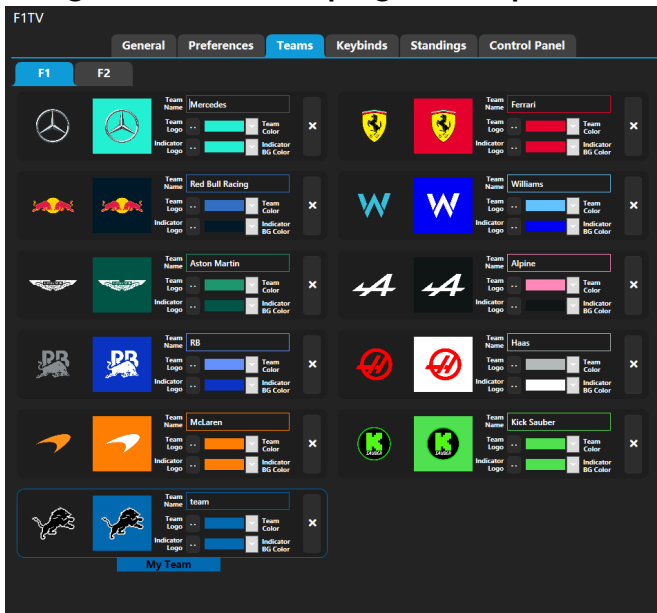

6. Launch the F1 game (22,23,24)
7. Navigate to **Settings** and open **Telemetry Settings**

- i.
8. Turn UDP Telemetry to **ON**.
 9. Turn UDP Send Rate to **60hz** or higher.
 10. Switch Your Telemetry to **Public**.
 11. Turn Show Player Names to **ON**.
 12. You're set!

FAQ

1. How do I change my Team Logos?
 - a. Navigate to the F1TV plugin and open the *Teams* tab.

- i. You can click on each logo to open up the file explorer and set your own custom TeamLogo or use a pre-existing TeamLogo.
2. Why do I not see anything even when the overlays are loaded?
 - a. **The game must be loaded and in a live session to see any overlays.**
 3. How do I change the gap from Interval to Leader?
 - a. **Navigate to the F1TV Plugin and open the *Preferences* tab. Click the toggle named 'SHOWING INTERVAL GAP'. You can also set a custom keybind to control that option.**
 4. Why is my leaderboard only showing last names and not gaps?
 - a. **Gaps are not shown until Lap 1. You could have also activated the Full Last Names option. To turn that off, open the Controller Dashboard and turn it off there or you can go to the F1TV Plugin and open the *Control Panel* tab and turn it off there.**
